Proper Shipping Name

CARTRIDGES FOR POWER DEVICE

Número de risco: 14

UN Number: UN0505

Hazard Class or Division: 1.4G

**Description of Hazard Class
or Division:** Explosives

Packing Group: Not applicable

Appearance: Pyrotechnic cartridge for marine rescue line throwing equipment packed in metallic casing containing solid propellant composition.

Exclusive PPE for emergency response team: Safety helmet, protective gloves, safety goggles, flame-resistant clothing and self-contained breathing apparatus.

IN CASE OF ACCIDENT

Fire: Explosive product with risk of fire, projection and explosion when exposed to heat, impact, friction or flames.

Health: Exposure to combustion fumes may cause eye and respiratory irritation. Contact with internal contents may cause skin irritation and burns.

Environment: Avoid contamination of soil, waterways and sewage systems. Product residues must be collected and disposed of according to applicable regulations.

EM CASO DE ACIDENTE

Leakage: Isolate the area and eliminate ignition sources. Do not handle damaged or activated products. Collect material using non-sparking tools and place in suitable container.

Fire: Use large amounts of water to cool adjacent areas. Immediately evacuate the area in case of fire involving the product due to risk of projection and explosion.

Pollution: Prevent residues from reaching storm drains, sewage systems and water bodies. Collect residues according to applicable local regulations.

People involvement: Remove victim to fresh air. In case of burns, cool affected area with clean water and seek immediate medical attention.

Information to physician: Symptomatic treatment according to victim's clinical condition.

Remarks: Instructions to the driver in case of emergency are described exclusively in the transport emergency envelope. Request company support and apply the Emergency Response Plan (ERP).

sobre o acidente. Solicitar apoio da empresa em qualquer situação de emergência.
